

Camp Themes for 2010

June 28 – July 2

Science Week

It's science sampler week! Each day of the week will feature an exploration in a different realm of the sciences, including geology (rocks rock!), limnology (pond life) and more. Become a scientist as we learn about the world around us.

July 6 – July 9

Fossils and More

Dig into the past during paleontology week. Find out how fossils help scientist understand what life was like millions of years ago. Excavate a dinosaur skeleton in our dino-pit and cast your own fossil replicas.

July 12 – July 16

Sky Hunters

This week is up in the air – have fun exploring the fascinating world of creatures that fly. Campers will learn about hawks and other birds of prey. Let your imagination soar like an eagle!

July 19 – July 23

Aquatic Adventures

From puddles to ponds and rivers to streams, learn about the wonderful wet world of aquatic life. We'll find out what lives below the surface and discover their unique adaptations. Then explore the upland ecosystems that depend on our wetlands to survive.

July 26 – July 30

:

Wilderness Week

Learn about what it takes to survive in the wilderness as we explore a diversity of habitats. Animals and plants have remarkable adaptations for survival, and we can learn so much from exploring their world.

Aug 2 – Aug 6

Go Wild!

Let's explore our region's wildlife. We will meet many live animals up close and explore their habitats. Learn how to recognize animal signs on the trails and find out how they live, what they eat and their amazing adaptations.

Aug 9 – Aug 13

Colonial Kids

Take a step back in time to early settlements of our region. Learn about the life of a farm kid in the 1700's. Make your own foods, toys and games. It's a fun filled week that's a blast from the past.

Aug 16 - Aug 20

Bug Out!

This will "bee" a "buzz-y" week of fun. Explore the amazing world of insects and their allies. Learn how to identify insects and arachnids. Explore the fields and woodlands in search of these fascinating creatures!
